

## AC 301

PMMA lenses have stood the test of time. CIMA offers a variety of lens styles made of this proven biocompatible material.

<b>Lens Type</b>	Anterior Chamber, Single Piece, Square Edge
<b>Material</b>	Clinical quality PMMA with UV absorber
<b>Angulation</b>	0.4mm (vault)
<b>Optic Diameter</b>	6.0mm
<b>Overall Diameter</b>	12.75mm
<b>Recommended 'A' Constant/ACD**</b>	115.0/3.0
<b>Lens Power</b>	All lens powers are measured in air
<b>Optic Design</b>	All positive lenses are square edge and biconvex
<b>Sterilization</b>	PMMA IOLs are Ethylene Oxide (dry) sterilized
<b>Nd</b>	YAG laser compatible
<b>Powers available</b>	0.0D to +30.0D in 1.0 diopter increments +16.5D to +24.5D in 0.5 diopter increments

\*\* 'A' Constant and ACD are estimated values. It is recommended that these values be used as guidelines only, and that each surgeon develop his or her own values based on individual experience, equipment, technique and post operative results.

Do not resterilize CIMA IOLs. Please contact CIMA or the Representative for further instructions.
